# THE TIGER

# 1961

PRESENTED BY

THE ANNUAL STAFF

# *Our Country*

In dedicating this edition of The Tiger to OUR COUNTRY, we do not mean to praise the geographical grandeur of our land. Instead we wish to make each person who holds this book realize the wonderful opportunities and ideals this, OUR COUNTRY, offers them.

Think of the freedoms and advantages we hold simply because we live in the United States of America. The rights and privileges we are guaranteed by the government of OUR COUNTRY are many. Life, liberty, and the pursuit of happiness are not meaningless words. They are the essence of our beliefs. Without them there would be no hope, no joy, and no future for all.

Therefore, the purpose of this dedication is to make those who recall pleasant memories while looking through this book, pause for a few moments and give thanks unto God for OUR COUNTRY - a place where memories are pleasant to its people.

# Superintendent's Message

Students and Faculty:

This annual is a tribute to the industry and resourcefulness of a few dedicated individuals who have labored many hours that the rest of us might enjoy treasured memories in future years by glancing back through its pages. However, I feel sure that these staff members will realize that they have gained more than anyone from the effort expended, as is the case with all laboring together to produce a worthy achievement.

It is axiomatic, I think, that hard work, like charity, is a twofold blessing - one in the product created and another in the character of the individual involved. This work is one example. Certainly there are many others connected with our school life. An outstanding theme, an interesting report, a difficult problem solved, a well coordinated athletic squad, all contribute more to the active participant than to the reader, listner, or observer. Would some power the "giftie gie us" to learn this at an early age!
